# The Scotland 5G Centre

Paul Coffey CEO

The  
Scotland  
**5G** Centre

Realising Possibilities, Transforming Futures

**Set up in October 2019**

we have an instrumental role  
in delivering Scottish  
Government's 5G strategy.

## About

The Scotland 5G Centre is the national platform for 5G acceleration and deployment, to realise its economic and social potential for Scotland. We are here to enable businesses to reap the benefits of this new technology, bringing together entrepreneurs with a network of small businesses, larger corporates and government bodies.

## Founding Partners

**S5GConnect**

## About S5GConnect

- consist of several hubs spread out across the country covering urban and rural areas.
- each hub is designed to be regionally relevant.
- ensuring the benefits of 5G will improve the connectivity for the local communities and businesses.
- reflecting the Scottish Government's economic priorities in a COVID era.
- working alongside the national network of existing innovation centres and development agencies.

## £4m Funding

package to support the establishment of a network of hubs to accelerate the adoption of 5G across Scotland.

**S5GConnect**

## Why Join us?

The S5GConnect programme will equip businesses and citizens of Scotland with the skills they need to use 5G technology as an enabler for the good of their business.

Local SME's, entrepreneurs and partners will have the opportunity to engage with S5GConnect hubs at three different levels.

### Awareness

- ✓ online and physical events to help you get up to speed about 5G

### Evaluate

- ✓ access to the 5G Innovation Platform and sandbox environment
- ✓ develop, prototype, test and demonstrate new products and services through innovation challenges

### Enable

- ✓ consultancy, coaching and mentoring support on how 5G could scale your business or commercial products
